Eltham Choi Kwang-Do Newsletter April 2007

From Sabumnim John Edwards

Dear Students,

Exciting news !

I have received notification from head office in Atlanta USA that there will be a "Europe 20th Anniversary" Seminar to be held in the UK next April. It will be held on Saturday April 5th 2008 at a location yet to be decided.

There will be schools from within the UK and from all over the world - a great opportunity to mix with other Choi Kwang Do students, and make global friendships.

This will be a great opportunity to see Sahjonim Kwang Jo Choi perform and talk about the art of Choi Kwang Do.

Although not announced yet, there will no doubt be a cost involved in attending the seminar. Based on previous experience under 16's will probably be about £12, and adults about £20. But don't hold me to it, I'm only guessing at this point. I intend to hire a mini bus (at the schools expense) to take those wishing to attend the seminar. That way everyone will arrive relaxed, and not have to worry about transport etc.

I shall mention this a lot during the year, as it is a MAJOR benefit to all students to see and hear the creator of Choi Kwang Do in the flesh for themselves.

My experience of training with the grandmaster at seminars has always been positive. He is a very nice, humble man despite his fame, and is always willing to talk and mix with Choi Kwang Do Students of all levels.

This will be an event not be missed !

It has also been announced that Choi Kwang Do has recently opened schools in Mexico and South Africa - You are part of a truly worldwide and ever expanding martial art.

I'm hoping for a full attendance on Monday, now we have all recovered from our Easter break, and all that chocolate !

We have lot's of certificates to hand out, and need to get back into training to keep ourselves Motivated and on top of our syllabuses.

Thats all for now..see you Monday.

Regards from

John Edwards
